

Code Repository Setup:

Adam Kogut, Kunal Sinha, Hiten Rathod, Arvinth Swami, Darwin Vaz

Our repository is hosted on a private GitHub repository, the way to access it is to email akogut@purdue.edu requesting access to the repository along with the username of the GitHub that would like to access the repository. I will then send an invite to the email that is connected with the GitHub username and after the user follows the invite in the email the user will have access to the repository.

You are able to clone, after gaining access to the repository, using HTTPS:

<https://github.com/AdamKogut/Pair.git>

Or SSH: `git@github.com:AdamKogut/Pair.git`
